**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) filed on 6-28-2004 is being considered by the examiner.

### ***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
  2. Ascertaining the differences between the prior art and the claims at issue.
  3. Resolving the level of ordinary skill in the pertinent art.
  4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
5. Claims 2-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Swanson US 20020141549A1 in view of Glatzer US 20050078090A1.

As to claim 2, Swanson discloses a method for outputting help information on a mobile radio device in which context-related help information for operation and input

Art Unit: 2617

functions is stored (see par. 0001, 0046), the method comprising: receiving a request for help information (see par. 0039); outputting help information with acoustic output (see par. 0036). Swanson does not specifically disclose outputting help information with one or more signaling buttons. In an analogous art, Glatzer discloses outputting help information with one or more signaling buttons (see par. 0001). Therefore, it would have been obvious to one of the ordinary skill in the art at the time of the invention to add signaling (highlighted) buttons to the help mobile radio of Swanson to provide a fast and simple way to indicate different functions as suggested by Glatzer in the same paragraph.

As to claim 3, Glatzer discloses a method wherein outputting help information by one or more signaling buttons includes illuminating the signaling buttons at an illumination level different from other buttons (highlighting, see par. 0001).

As to claim 4, Swason discloses a method wherein acoustic output includes voice output of a help text via a speaker in the mobile radio device (see par. 0037, 0045).

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Hertzberg US 20040224717A1 discloses a communication device with a voice user interface with signaling buttons.
